Very Inspiring Book! By Delight I have several books on roses and am happy to add this one to my collection. The book contains many references to the history and use of roses in many forms. There are recipes for making potions, waters, etc. along with many photos of rose arrangements. It is very nice to be able to purchase a book you missed many years ago. 5 of 6 people found the following review helpful. Perfect Coffee Table Book! By The Preacher and Preacher's Wife This is a soothing book to see and read, giving photographic examples of ways to display roses indoors and out.

From real roses displayed in a rose-patterned crystal vase to rose designs on fabric and rose petals in sachets, there are dozens of superbly illustrated ideas for using them to decorate, entertain, and craft. Dreamy suggestions range from redoing a room to setting a holiday table to assembling a rosebud and ivy pomander.
