**Michael Ball : Decorative Glasswork (New Crafts)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Decorative Glasswork (New Crafts):

4 of 5 people found the following review helpful. To Kick Start Enthusiasm InspirationBy mcluery@candw.ag This book has excellent colour photographs of historic and modern glassware painting from teapots to champagne glasses to windows ; a comprehensive guide to materials and techniques - all accompanied by photographs. The step by step instructions for projects are easy to follow - again, photos all the way plus templates. The projects involve readily available items - bottles, jars, mirrors, glasses, small windows, photo frames, baubles, boxes, candlesticks. Simple to do and impressive when finished. I am always going back to this book.

These stylish craft books are highly accessible, with all techniques fully explained, and each project photographed from start to finish. Each book contains 25 beautiful and original projects.
