Boutique-Sha : Decorative Knots for Jewelry and Accessories before purchasing it in order to gage whether or not it would be worth my time, and all praised Decorative Knots for Jewelry and Accessories:

Those thin booklets aren't cheap. I bought this mainly for the instructions to wrap stones, since I have oddly shaped stones that's been sitting around for years cos I didn't have the knowledge to make something of them. At last, I do. This book not only shows the basics, but also knots and designs I've admired and longed to master. Last night I made a necklace of a large crystal that had been sitting in one of my craft boxes since 94--it's a unique piece of jewelry. Just that alone made the purchase of this book worth it. I won't have to peruse my other booklets now when I want to refresh my memory on something, I'll just go to this one.1 of 1 people found the following review helpful.
