Brian Wood : Demo: The Twelve Original Scripts before purchasing it in order to gauge whether or not it would be worth my time, and all praised Demo: The Twelve Original Scripts:

22 of 25 people found the following review helpful. great American short-story compilation By Patrick Corgan very solid and unorthodox storytelling. The script is intelligent, unapologetic and sort of naturalistic in its approach to theme. the description says it's a collection of "stories of conflicted teens grappling with love, loss, and the joy of finding your own way in life", sounds a tad bland. These stories break with the trivialities and cliché themes seen in mainstream comic books for decades. I should note I'm not a connoisseur of underground, indie comics so I wouldn't

be able to compare this to the tradition of, say, Crumb or Clowes. It was a great read and the art is outstanding. 0 of 0 people found the following review helpful. Must have
By Gabe
This collection is incredible. Poignant, dark, real. I want to say cutting edge, but some of the best indie stuff has been doing this for decades. But this still has its own character and is highly original. You must get this.
4 of 5 people found the following review helpful. Excellent Independent Collections of Dark Teen Stories
By Sapph79
With DEMO Brian Wood and Becky Cloonan present an amazing set of dark stories with brilliant black/white art. Each story is short but telling, as we see several teens coping with the rougher side of having superpowers. This is much better reading and art than can be found in the similar Marvel comic NYX. I highly recommend this collection over the mainstream's version as it has more grit and more heart.

Collecting the original twelve scripts of the landmark comics series, the Demo Script Book allows an entertaining and informative behind-the-scenes look at writer Brian Wood and artist Becky Cloonan's creative process, including the early notes setting up the characters, setting, and cover illustrations for each issue. Presented in Wood's very readable script/prose hybrid format and complemented with 12 new illustrations by Cloonan, the Demo Script Book stands solidly on its own or as a companion to the original series.
