Susan Rios : Designer Scrapbooks with Susan Rios before purchasing it in order to gage whether or not it would be worth my time, and all praised Designer Scrapbooks with Susan Rios:

0 of 0 people found the following review helpful. Five StarsBy Rosie GreenAs described.0 of 0 people found the following review helpful. Five StarsBy Kathy BennettBeautiful book that arrived quickly!16 of 16 people found the following review helpful. Over The Top Scrapbook DesignBy N.H. BookwormThis lady is an amazing painter -- her art is absolutely charming. However, her projects in this book are heavy-handed and WAY over the top for scrapbooking.In most cases, the colors of paper embellishments detract from the photos and journaling too much. And to call them "scrapbook" projects is a disservice to the reader -- because of their three-dimensionality, most projects presented are better suited to a shadowbox than an album.As I browsed these projects, they reminded me of the garish chintz over-engineered "Victorian" decorating craze of the 1980s, which has all but passed into oblivion. Not that you can't use some of Ms. Rios' examples for inspiration on your scrapbook pages, but if you're looking for a TRUE scrapbook resource, there are much better books than this available.

The newest entry in the blockbuster Designer Scrapbook series--recently featured in Time magazine--comes from an artist with a huge following and a distinct design style. The Designer Scrapbook series continues its winning streak with a very special collection. Not only is Susan Rios a successful book illustrator, her romantic paintings of cozy interiors, lush gardens, and soothing seashores have hung in at least 1,000 galleries--and attracted the attention of

many notable collectors and celebrities. Scrapbookers will be thrilled at her remarkable pages filled with countless never-before-seen ideas. On breathtaking display: glitter, vintage paper, antique ribbon and lace, and dimensional paper art. And her creativity isn't limited to the page: she also offers projects for exquisite memory boxes, too.
