Anthony Gatrell : Dictionary of Floristry and Flower Arranging (Batsford Vocational Handbooks) before purchasing it in order to gage whether or not it would be worth my time, and all praised Dictionary of Floristry and Flower Arranging (Batsford Vocational Handbooks):

This is an illustrated A-Z of the terms likely to be used in floristry and flower arranging and in the related disciplines of botany and horticulture. The arrangement is alphabetical and items are cross referenced where relevant. The author also deals with colour and there are diagrams explaining related harmonies. It meets the needs of City and Guilds and the Society of Floristry examinations. Anthony Gatrell is on the editorial board of "Insight", the journal of the NAFAS Teachers' Association and is a qualified teacher of flower arranging.
