**Jeanne Wines-Reed, Joan Wines : Digital Scrapbooking For Dummies** before purchasing it in order to gage whether or not it would be worth my time, and all praised Digital Scrapbooking For Dummies:

3 of 3 people found the following review helpful. Good beginners bookBy Kara's GammyMy daughter and I are new to digital scrapbooking and wanted to find a book to help us get started. I still like using my paper, stickers and embellishments, but she (age 25) is loving the digital because it's less mess!Try it-- you'll like it! It takes some time to figure out how to get started, but I can see that it will be really helpful to share online with friends and family who don't live nearby. This book is a great start!!Also look online for various digital scrapbooking websites that give you colorful ideas.0 of 0 people found the following review helpful. :)By CustomerGreat, fast service! Loved the product and the speed at which it got here! :)1 of 1 people found the following review helpful. Dumber than dumbBy Anne E. DickinsonMe, not the book!! The book is very good and, if I take the time and patience to read and follow instructions, the projects come out well. I won't rate my ability to be patient! There's nothing or a Dummy book can do to help with that.
