When you make items yourself, you can choose projects that suit your tastes, create them in your choice of colors/textures, and then use them to your hearts content. Whether youre aiming for efficiency, decoration, fun, or self-sufficiency, theres a awesome DIY project just waiting for you. Seriously got no money but love crafts? Then this book is for you. I love the fact that almost every single page has a different craft with EASY DIRECTIONS with GREAT comments and notes that depict the important points. A lot of times, crafting books have projects that are too fussy, overdone or silly-looking. This book keeps those projects to a minimum. I think this book carries on the great tradition of amateur crafting. I highly recommend this book for any crafter. You will not be disappointed!

It would not have been that difficult to add them, and would be so much easier for those of us who learn by seeing, rather than reading. Fortunately, I can do both -- but a good friend who loves crafts would have been lost with this book.

Do you consider yourself to be crafty? Do you enjoy making things with your very own two hands?
