This book tells you about using ordinary vegetables and herbs to put a little more personality into your soaps and body scrubs/washes. I now know what to add to my batch for exfoliating that isnt going to be so harsh on my sensitive skin. I also learned a few different things to keep my milk-based soaps from turning yellow and spoiling on me as quickly. All of the guesswork is taken out of determining the PH of your batchs too! The proper way to prepare the Lye solution is so well explained I am no longer worried about being burned. This book is a very useful companion to 365 days of healthy and organic soap making.2 of 2 people found the following review helpful. Make Your Own Soap For Your Sensitive Skin at Home!By Mia JohnsonThis book serves as a step by step start up guide for beginners of soap making and to start up soap making as a hobby. Here many methods of soap making is discussed and I find it highly interesting. I actually tried one of the methods and I find it highly enjoyable.
