I'm thrilled to own a copy and ready to make dolls for the grandkids- in the future- distant future.The directions and patterns couldn't be simpler, it was easy to follow and the results are beautiful!1 of 1 people found the following review helpful. I love the dollsBy Stephanie D CrossI have been searching for this book since I was a child and used to check it out repeatedly from our local library. I love the dolls, I love the simple projects and clear instructions and the personality that the author brings both to the book and to the dolls.7 of 7 people found the following review helpful. This Brings Back Such Great Memories!!By Ben NolenI LOVED this book as a kid! I hand-sewed the entire family and multiple outfits for each. I have such wonderful, warm memories, thanks to this book. I lost the book and haven't been able to find it before this. I don't even have any girls, but I'm buying it! A nice feature of this book is that it tells the story of the the doll family, along with the patterns. (typed by Ben's wife! LOL)

Patterns and instructions for making the various members of the Littlefield doll family, from grandparents to

grandchildren. Includes a family history.
