From North Light Books : Doodle, Draw, Journal: An Art Journaling Workbook (Art Journal Workbook)

before purchasing it in order to gauge whether or not it would be worth my time, and all praised Doodle, Draw, Journal: An Art Journaling Workbook (Art Journal Workbook):

7 of 7 people found the following review helpful. Multi-media complex projects - not a doodle journalBy Paula .S.The requirement list of materials for this book is intimidating and expensive and I actually own an extensive amount of art supplies but lacked most on their list. I recommend previewing the book and taking a long look at requirements before purchase.The layout of the book is perplexing to me. This was done by designers right? It has lots of blank pages to draw in, but they're not meant to be drawn on. Okay that makes no sense - but that's how it is, there is a ton of blank space in the book but you're meant to use your own materials and journal and not the book to render the art projects so the reader is left wondering -- why is the page blank? Use some stock art or something, but don't leave it blank! ;-P

We're artists right? :-))If the book was restyled and renamed, "Art Projects for Multimedia Enthusiasts" then it would be apply titled and hit the correct audience. If you like working with fabric, found objects and loads of media then you'll enjoy this book as the projects do seem to be well conceived but I don't have the stuff to try them out to give a fair review of how they turn out.If you're a doodler and don't have much time like me it's a waste of money. If you need a book to Doodle in I recommend, "Art Doodle Love" by Dawn Sokol. It has pages to doodle in, lots of fun prompts and is fast and easy and self-contained. It's more aimed at the Doodle artists in my opinion and lacks the heavy multimedia angle of Doodle Draw Journal.1 of 1 people found the following review helpful. Doodle, Draw, JournalBy Betty I. ThomasFilled with lots of great ideas to get you going when you want to draw and don't know where to start. I will be using it for several more months because it has so many ideas and blank pages to test them out. Love it.1 of 1 people found the following review helpful. ONE OF THE BESTBy kimI'M NEW TO DOODLING AND WHEN BROWSING THIS BOOK, KNEW IT WAS FOR ME. IF YOU LIKE TO DOODLE OR DRAW YOU WILL THOROUGHLY ENJOY THIS BOOK. IT'S A "MUST HAVE."

Sketch. Doodle. Embellish. Repeat. Drawing can be anything you want, especially in your art journal. So if you think you can't draw, well, Doodle, Draw, Journal: An Art Journaling Workbook is here to prove you wrong. And to provide you
