Great for a landscape professional in need fo drawing practice, or for anyone who loves gardens and coloringBy CustomerAs a landscape designer who enjoys drawing but doesn't often have an opportunity to draw, this is a fun book. The illustrator has a really nice drawing style with a good sense of texture and depth. As you color in the images, you get to spend some time on some very nice garden scenes. The book is a good tool for someone looking to practice their landscape rendering skills. I enjoyed figuring out color, shading and shadows. I think anyone who enjoys landscapes and enjoys coloring would enjoy this book as well. Personally, I liked the images that featured a more expansive garden scene better than the close up images- which were harder to color in in a way that was satisfying - but it was good to work in all scales. Overall- meditative and enjoyable. Also a good refresher on how to use color to denote foreground, middle ground and background- my first attempts are

attached- I'm hoping this book will inspire me to practice and get better as I go along. I did the attached drawings in pencil, because my markers have dried out, which was fun, but it would be really fun to do in market when I get some new ones. 1 of 1 people found the following review helpful. Highly Recommended By Customer This is a unique coloring book. Drawn with an easy, flowing hand, the book invites coloring creativity precisely due to the looseness of the lines. This book is refreshing and relaxing! Erin Lau's assured hand shows also in her mastery of perspective, unlike most coloring books with flat, two-dimensional drawings. There is a sense of three-dimensional space, and that one has been placed in a privileged point of view. Not a bad place from which to see a garden! 1 of 1 people found the following review helpful. Unique and inspiring coloring book for creatives of all ages By RK This is a wonderful coloring book unlike any others I've seen. The free-form drawings inspire creativity. We got this out at a family gathering, and all the adults thoroughly enjoyed themselves.
