Style is geared towards Tweens and 20-30 year olds. Or people that just want to have fun with their accessories. Have done a couple projects out of the book and they came out so cute. The instructions are easy to follow.0 of 0 people found the following review helpful. OverpricedBy W. SwiftWay overpriced. I collect a lot of jewelry books, especially about resin. Almost every other book on about resin gives twice the information for half the price.1 of 7 people found the following review helpful.
