**Ruth Webb Lee : Early American Pressed Glass: A Classification of Patterns Collectible in Sets Together With Individual Pieces for Table Decorations** before purchasing it in order to gage whether or not it would be worth my time, and all praised Early American Pressed Glass: A Classification of Patterns Collectible in Sets Together With Individual Pieces for Table Decorations:

1 of 1 people found the following review helpful. Great asset for the collector or resale of EAPGBy DeborahKThis book was chalk full of patterns, era patterns, symbols used in the patterns by maker. Design details and what makes patterns unique. Quick identifiers how to spot fakes verses the real thing. Great book to have for resale identification. Great black and white pictures. Also info on variance of glass colors.3 of 5 people found the following review helpful. Very heavyBy Joan of StienbeckThis is an older book around 1985. The weight is very heavy. Not a take to bed book. I choose this book because this lady is well respected in the glass field and gave much of her time to document and draw and take photos of the early American glass. It is a good book to add to your collection of glass books because now I am seeing that you have to have many to get as much information is available.3 of 5 people found the following review helpful. Great serviceBy SadieI received the book in only a few days, it was in even better condition than

described and was very carefully wrapped in order to preserve the paper dust jacket.
