There used to be a better product with designs in the margins for the kids to color in but the scrapbooking fashion seems to have driven coloring off the market and my kids miss it. This one was fine until this years version; 1) the dates, days of the week holidays etc ARE printed in like a normal calendar, all you have to do is decorate the picture part. 2) you can put original kids artwork, or short writing pieces on the picture page (or photos if you want). 3) it comes with some scrapbooking papers and stickers--latter is key for the kids who hate having to draw or decorate on demand. The problem is much of the scrapbooking materials this year are horrendous--the background for May is bright yellow with tomatoes all over it. For April it is brown stripes, for June bright red, for August an incredibly annoying yellow-red dot pattern. The stickers aren't as nice as last year either. Fortunately a friend gave me alot of scrapbooking stuff and I covered up the backgrounds with my own paper but it was alot of work! I hope there is another product on the market next year or they radically redesign this one. I am going to look into buying a plain white calendar from Staples and using my own scrapbooking stuff 0 of 0 people found the following review helpful. calendar was easy to put together. I made 3 of these for Christmas gifts and included a 12x12 album. The recipients loved them. There were 2 things about the calendars I was not crazy about. It would have been nice if the cardstock embellishments would have been perforated so that they could just be punched out instead of everything having to be cut out (especially the photo frames). Also, the 'themes' for each month were not exactly what I would have expected for the month. For example, February seemed more appropriate for Easter (pastels, candy), rather than red/pink and hearts, like I would have expected. But the kits served their purpose and made great gifts! 1 of 1 people found the following review helpful. Awesome Scrapbook Calendar! By SMITTY This is great if you love to scrapbook.
