T. O'Conor Sloane : Electric Toy Making for Amateurs before purchasing it in order to gage whether or not it would be worth my time, and all praised Electric Toy Making for Amateurs:

A reprint of the nineteenth edition --published in 1909-- this book includes batteries, magnets, motors, bells,

miscellaneous toys, dynamo construction, telegraph key, sounder, microphone, telephone receiver, and many more. A wonderful glimpse into the American society of 100 years ago.
