Michael Golden, Renee Witterstaetter : EXCESS - THE ART OF MICHAEL GOLDEN PB: Comics Inimitable Storyteller and How He Does It before purchasing it in order to gage whether or not it would be worth my time, and all praised EXCESS - THE ART OF MICHAEL GOLDEN PB: Comics Inimitable Storyteller and How He Does It:

2 of 2 people found the following review helpful. but this book was a pretty big disappointment By Liam F. Walsh I give Michael Golden's artwork 5 stars, but this book was a pretty big disappointment. The text is all filler, there's a lot of it, and if that weren't enough, it's even poorly edited. The print quality is not particularly good and the selection is not well curated. Furthermore, the laconic Mr Golden does not make a very interesting interview subject, so that section is basically filler as well. I wish I'd saved my money for when a better collection came out and recommend that you do just that. 1 of 1 people found the following review helpful. technically brilliant artist while at the same time one

of the most obscureBy Miguel TavarézFor me growing up in the 80's,going to art schools all those years, Michael Golden was the best in the biz as far as i was concern. Problem was his work was hard to come by..... as he was usually doing one a year comic annuals most of the time. Michael golden was a phenomenal technician with his fantastic pen ink stylings..This book shed light on Michael i previously didn't know..... with beautiful repros of his works.It brought back memories on my years in high school; while most went for John Byrne or John Romita etc. i stuck with Michael Golden..... he was my 'guy'.The book was a worthwhile read for me and shed new light on an obscure comic book artist that i grew up loving so much....you can't go wrong if you're familiar with Michael Golden.0 of 0 people found the following review helpful. Four StarsBy The Pinto KidGreat interview and good representation of art from the Great Michael Golden--

Artist/writer Michael Golden is one of the most respected creators in the comic-book industry, the influence behind generations of artists. He visualizes the finished page completely in his head before he begins--as if those images had been there always, waiting to be freed. For Golden, excess defines a mind that can form every fold and nuance of a character without being overwhelmed by the frenzy. Like Michelangelo creating a sculpture, Michael Golden chips away the excess to reveal the artwork within.
