Cute felt kit and fun to make 10 Marvel CharactersBy iiiireaderI have been making a variety of felt characters recently (usually from a book with my own materials.) The felt kits by Aimee Ray have been a fun way of making small soft toys for my grandchildren in the characters that they enjoy. My grandson is getting very interested in superheroes, so this Marvel set works great for him. He also would like some villains so he can battle with them. I'm hoping there will at some additional sets in the series as there are so many characters that could be added. I've seen that there will be a Disney Princesses kit and a Woodland Critters kit coming out later this year.These are the characters you can make with this kit: Ironman, Falcon, Rocket Raccoon, Black Widow, Hulk, She-Hulk, Thor, Captain America, Spider-Man and Doctor Strange.While the kit lists the materials needed to complete each project, it does not include a master content list. Here is what the kit contains:Felt included: large size red, green and black; medium size brown, gray, white, peach, yellow, red, and blue; and small size purple.Six-stranded Embroidery Floss included: black, red, blue, brown, gray, green, purple, yellow and white.Also included: Templates for each character in a lightweight card stock, small format instruction booklet, a sharp point embroidery needle, and two packs of stuffing (one large and one half size.)I own a couple of the crochet kits by Thunder Bay. Unlike those kits (which only included material for 2 projects out of 12), this kit is supposed to contain the materials you need to make all 10 of the characters.The instruction booklet gives a decent instruction on the various hand sewing and embroidery stitches that are needed to finish the characters. Each stitch also has a visual diagram as well. If you have not embroidered or hand sewn before, you might want to pick up an inexpensive skein of floss and practice on a piece of material before attempting it on the felt.0 of 0 people found the following review helpful. Box was a little beat up when it arrived but I will reflect that on shipping not the product.
