Michael Powell : Mini Cross Stitch (Twenty to Make) before purchasing it in order to gage whether or not it would be worth my time, and all praised Mini Cross Stitch (Twenty to Make):

However, there are two things that I think need some revision: (1) the size of the book is not very convenient for the larger designs (country cottage, sunny windowsill, etc) - the symbols are too small and it is hard to read them, (2) in different models, the author seem to use different thread labels for an equal thread number. For example, in page 10, thread #386 is referred as "Burnt Orange Ultra vy lt" but in page 44, the same thread is labeled as "Yellow Ultra vy lt". This may be a typo, but just a word of caution which could confuse the user. Happy X-stitching!12 of 13 people found the following review helpful. cute picturesBy Kim T.I ordered this book because

the description said it was 20 patterns that all measured 3 1/2 by 3 1/2. I made all kinds of mix and match ideas in mind. Only 2 of the patterns are that size. Not all of them are even square. Some are just borders. Still the pictures are cute and original so I have been making use of them. The patterns themselves are printed with color and a symbol. Sometimes on the dark colors the symbol is hard to make out. I needed lots of light and my strongest reading glasses. 3 of 3 people found the following review helpful. Lovely---By Marcia I have seen pictures of his work for a long time. It is unusual that the backstitching is the real art of the design. His backstitching is quite unique to the actual cross stitch. Most of the time it is the backstitching that accentuates the cross-stitching. But it is just the opposite with Powell's designs. I am always studying his designs as I haven't found anyone quite like him. I was thrilled to receive this mini-book

It's a quirky new take on cross stitch influenced by a love of architecture, buildings and gardens. The twenty unique, contemporary designs are shown with charts to work. There is a brief stitching guide. I love the birthday cake, daisies and village. The latter and a couple of other designs remind me of the architect Gaudi. All the designs are worked as mini designs, so they are relatively quick to make.
