Peter Schiffer Herbert : Miniature Antique Furniture before purchasing it in order to gage whether or not it would be worth my time, and all praised Miniature Antique Furniture:

0 of 0 people found the following review helpful. usefulBy JGThis book is a very good reference for doll houses and furniture from the early 1900's. I have it on my bookshelf along with other doll related references. As a collector and, in this case seller of doll miniatures, it helped me a lot.0 of 0 people found the following review helpful. Five StarsBy dwight ernstexcellent!

Over 300 color and black and white photographs present a unique essay on children's and doll's genuine antique handcrafted furniture. Each piece is placed in historical sequence to demonstrate the evolution of styles and the quality and historical significance are discussed. From this comprehensive study of miniature furniture, the reader will discover those aspects which determine the quality of an antique miniature, as well as those particular facets which contribute to the beauty and grace of a piece. Its wealth of information and careful historical documentation make Miniature Antique Furniture of interest not only to antique experts and historians, but to amateur collectors as well.
