John Gustaf Holmström : Modern Blacksmithing, Rational Horse Shoeing and Wagon Making: With Rules, Tables, Recipes, Etc (Classic Reprint) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Modern Blacksmithing, Rational Horse Shoeing and Wagon Making: With Rules, Tables,

Recipes, Etc (Classic Reprint):

The following computer-generated description may contain errors and does not represent the quality of the book. Is there a book treating on this or that? etc., etc. To all these queries I was compelled to answer in the negative, for it is a fact that from the time of Cain, the first mechanic, there has never been a book written by a practical blacksmith on subjects belonging to his trade. If, therefore, there has ever been such a thing as filling a long-felt want, this must certainly be a case of that kind. In medicine we find a wide difference of opinion, even amongst practitioners of the same school, in treating diseases. Now, if this is so where there is a system, and authority for the profession, how much more so must there be a difference of opinion in a trade where every practitioner is his own authority. I shall, therefore, ask the older members of the blacksmith fraternity to be lenient in their judgment if my ideas don't coincide with theirs.
