**Barbara Campagna : Modern Flowers** before purchasing it in order to gage whether or not it would be worth my time, and all praised Modern Flowers:

1 of 1 people found the following review helpful. Modern FlowersBy WoodworkerVery clear patterns and instructions. It gives you the approximate design size depending on the different "counts" of the Aida fabric available.1 of 1 people found the following review helpful. CraftGirlBy ChrisI love this book. Great illustrations and detailed instructions. Can't wait to get started. Colorful designs and very modern touch.0 of 1 people found the following review helpful. needed chart of flowers that did not conform to what is in natureBy Mary R. DrenningFound this booklet in a well known fabric store for a whole lot more money. Needed this chart for stylized fabric that had already been purchased.

With seven contemporary floral designs, this cross-stitch project book uses basic techniques to create garden blooms that are highly stylized. For any crafter from beginner-level to more experienced, this collection includes detailed

black-and-white charts that feature color backstitching lines and a color symbol key for floss matching. Projects include a picture-frame embellishment, a pillow case, wall art, a towel, and a placemat.
