Randy Wardell Judy Huffman : More Lampshade Patterns II before purchasing it in order to gage whether or not it would be worth my time, and all praised More Lampshade Patterns II:

More Lampshade Patterns contains 11 full size patterns for large swag-style lampshades. The designs include six large (16- to 22-inches) dining room lamps, a 15x27-inches oval pool table shade and four medium size living room styles. These shades do not require a lampmold for assembly, instead they are constructed using the flat-foil method described in a step-by-step instruction section using explanatory photographs. All projects are shown in full colour and are complete with a specification list, a material list with glass colour suggestions and assembly tips with illustrations.
