I love the patterns, but I wish there were just a few more details or diagrams for some parts, like assembly or joining pieces. Not for a novice, but adorable patterns and dolls. Note: I made some modifications to adjust where I

couldn't follow the pattern instructions.3 of 3 people found the following review helpful. Directions easy to follow (just follow directions exactly-I mean this book was written by a Brit and you need to stitch with European directions-they are different than American- be sure to go by European instructions which are in book) and must have fun.1 of 1 people found the following review helpful. Adorable, but be careful...By GwendyI'm still making this doll, but it is coming together nicely. The only problem is that the instruction book has redefined the most common crochet stitches -- their "double crochet" is REALLY single crochet; their "triple crochet" is REALLY double crochet.Once I figured that out it started to actually look like what it is supposed to look like -- good illustrations and photos help (I first realized there was something wrong with the "double crochet" stitches when I looked carefully at the photos. The doll clothes and accessories are VERY cute.
