By Michelle  
When I was a kid, my favorite book in our Childcraft encyclopedia set was called, Things to Make and Do. I cant believe how many hours I pored over that book! I found this book to also be filled with delightful ideas for crafts and activities for kids. It includes a large photo of the finished item, and I also love their adorable illustrations showing how to create every step of each project. Our favorites (so far!) include a mermaid doll, easy to make felt food, and tiny cute mice that have a miniature bed to sleep/hide in. I cant wait to make the teddy bear snuggle sack for my daughter to take with us places and play quietly with. Im not very good with putting in zippers, but Id love to make the monster pencil case, with the zipper mouth.

Sewing is fun  
learn how to stitch with this step-by-step guide. Youll soon be a sewing whiz, using a wide variety of hand stitches, as well as learning how to sew in a zipper, how to sew on buttons, and how to embroider and applique. In Jewelry and Accessories, you can make adorable watermelon slice brooches or a fun raccoon scarf, whilst Toys and Dolls has a fake fur teddy bear, which would make a great gift, although hes so sweet youll want to keep him for yourself. You can also make a bunch of colorful felt bugs to play with  
your littlest family members will love them. Next is Stationery and Storage, which makes being organized fun! Youll be the star of your class with the monster pencil case, and the customized tote bag is perfect to carry your books in. Learn some beautiful embroidery stitches with the monogramed pillowcase in Gift Ideas, or why not surprise a friend for their birthday with some personalized bunting? All of the projects have simple step-by-step artworks to guide you, plus a clearly marked skill level so that you can start with the simpler projects and move on to more challenging crafts as you become a more confident stitcher.
