Lots of room for pictures!By marjoI used the Anne Geddes baby book for my first son, and I didn't want to use the same one again when I found out I was expecting, so I ordered this one. In comparison, I think I like the Anne Geddes one a little bit more because the layout seems to flow a little bit better and there are more details such as a tooth chart, a pull-out growth chart, a space for ultrasound photos, and a pocket in the back for extra things. That said, I still like this one enough that I will use it, it's just a little bit different. The cover and the pages are of good quality and there are TONS of spaces for pictures. There is a little tiny envelope on one page for a clipping of baby's hair, which is cute.0 of 0 people found the following review helpful.
