It should be a how to sew book or how to glue book. Was even thinking about returning it but didn't. Won't use it.0 of 0 people found the following review helpful. Five StarsBy MindyI have really loved how this lafy has used nature to inspire making journals to keep.

A lovely nature-inspired art and journaling book featuring the distinctive artwork, projects, journal pages, and unique techniques of artist Tracie Lyn Huskamp. Along with hints and tips for photographing nature, collecting, and preserving natural elements, the book discusses ways to capture moments and create memories through simple sketches from photographs, painting on fabric, creating journals and journal art, as well as with shadowbox assemblages to display and highlight particular found objects. The artist will share handwritten notes, drawings, poetry, and detailed techniques.

This book is for the creative journal writer on making ones own journals using scrapbooking materials and techniques. Artist and teacher Huskamp features birds and plants as themes for paper collage on altered book covers and pages. Projects are similar to those in scrapbooking guides, but the emphasis on journaling may attract a new audience to the craft. --
