Antonio Nunez Jimenez : The Journey of the Havana Cigar before purchasing it in order to gage whether or not it would be worth my time, and all praised The Journey of the Havana Cigar:

1 of 1 people found the following review helpful. Great book. Check Half-Price books too locally if you happen to live near one.By NickI enjoyed reading this book. The photography and pictures inside are beautiful. The book covers mostly an historical account of tobacco (Cohiba) and its influence on Cuba and the rest of the world. It does touch on the horticulture and process of making the worlds finest cigars, enough for the average person to appreciate the painstaking effort it takes to achieve these works of art. So dont expect to learn how to grow and wrap your own cigars from reading this book.The book was educational, well written, and fun to read. Its amazing how much influence tobacco sugar has had on history, and the settlements in the Americas.Now Im ready to Have a Cigar1 of 2 people found the following review helpful. AwesomeBy Evelyn E KontraThe book is beautifully made and what a deal. I had

been at a wine bar and had seen the book. I was very impressed with the book and the information and the pictures that I wanted to purchase it. They only had one copy and it was really worn. They were selling it for \$30.00. I looked on line and found it for under 10.00. I purchased it for my father who is from Cuba and smoked Cuban Cigars. He loved the book. He loved it and I got a great deal!!!!0 of 1 people found the following review helpful. Five StarsBy KenNice almost coffee table size
