I found this book on while searching for some other ones and immediately put it on my wishlist. I tried to see if my library had it but they didn't so I just decided to buy it. I was really worried I wouldn't like it because all I had seen was the few projects would let me see on their site--those I did like, however. Once I got it, I LOVED it!!! It has the cutest things in it! And everything looks doable. I can say honestly that I want to make every single thing in that book and they don't look so hard that there is no way a beginner like me could. Debbie Bliss has chosen the greatest patterns and taken such beautiful pictures of them! I love the layout of the book--different knitted items based on the time of year. I want so many of these items for myself but I'm so excited to knit some and put them aside for gifts! This is my new favorite knitting book!!!3 of 3 people found the following review helpful. Full of great projects...By Katt978I am always hesitant to buy knitting books online because you can't look thru the entire book

before buying, however, this book is packed with ton of projects I can't wait to try! I'm at a easy to moderate knitting level, and there are lots of projects that I think I will enjoy. There are also many that are a bit above my current level, so I think I will enjoy the challenge! Nice book!

By Customer
Very disappointed in this book. Fell short of my expectations. It is almost impossible to purchase this type of book online because you cannot see the inside...see what you are really buying. The projects were weak and not worth making. I returned this item for a full refund which I hope to receive soon. This is not the Debbie Bliss I know.

This book is the avid knitters dream, with 52 original projects specially chosen for each season of the year. Unique garments and accessories are yours to be had or given away, each of them charming, useful, and simple enough to make in one week or less. Projects range in scale from sizable to small; some take a few balls of yarn while others can use up your remnants. They all have step-by-step instructions any knitter can follow. This is the perfect book for people who are on a budget and have limited time to knit.

"Fifty-two weeks, 52 small projects to fill the calendar. Designed to be completed within seven days, divided into seasonal chapters, the items here carry Bliss's signature style."
