I saw them at Land of Nod last a couple years ago and ever since then I have been obsessed with them. I loved getting to read the back story and getting to hear more about the designer, Jess Brown. Seeing the process in which the materials are collected and the dolls are made was absolutely inspiring.I ordered this book on Kindle awhile ago, but I'm going to be ordering the hardback based on reviews. I do love Kindle, but there is also something about actually having a book in your hands, especially one as lovely as this one. That being said, the pattern offered on Kindle would be much easier to alter (in my opinion) than the pattern provided in the book. I found the pattern downloading directions to be very clear cut and easy to follow. As far as the hair goes, There isn't really a pattern. I went through as

many doll photos of hers as I could and just basically tried to copy a similar technique. If anyone has the hair figured out, please share with me! One of my favorite things mentioned in the book was how she uses thrifted clothing for her doll clothes. She uses lots of high quality natural fibers (old cashmere, linen, silk, ect) which for me would be way to expensive to buy those types of fabrics, so I have been on the look out for those types of materials when I go to thrift stores. However, the doll I made is not made with these cool, vintagey materials. The patterns are for a smaller version of the classic Jess Brown dolls, but with the pattern you can alter them to make a smaller, or larger doll. I decided to alter mine and *try* to make it look as close to her 22" doll as possible. My daughter loves her doll and I had so much fun making it! 2 of 2 people found the following review helpful. I love the concept of using fabric from vintage clothing. By watersong This book will give you all the basic information you will need to make your own rag dolls. Not only that it is a pleasure to view and read about her philosophy behind making the dolls. I love the concept of using fabric from vintage clothing. I had no problem with the patterns even though they are printed on both sides. I used old dress pattern paper I found at a thrift shop and traced her pattern onto the thin pattern paper. It was easy to do and now I reuse the patterns for more dolls. I have made 10 dolls so far. I explored creative ways to make the hair using 100% hand dyed wool. You will need to get a bodkin tool to turn the legs from inside out as they are narrow. Also a pair of hemostats work well too. Pay attention to the quality of stuffing you use as this does make a big difference. The book gives you the groundwork to get started then you can add your own creative ideas once you get the basics down. So much fun to make these dolls. I have given them away as gifts and everyone really loves them! Even men! 1 of 1 people found the following review helpful. A Work of Art! By Alicia Malara This is a fantastic book! My six year old daughter and I traced the pattern for the rag doll together and then we pinned it to the fabric(which cost \$2), cut it out and sewed it up. Altogether, it took us about four hours from start to finish. My daughter adores her doll and sleeps with her every night; she even makes her own rag clothes for her. The dolls are charming and simple at the same time. Oh, and this book is a work of art; stunning photographs, it is a visual feast and very well written(not too technical). I love the way Jess is always encouraging the reader to get creative and make something lovely!

Designer Jess Brown is known for her irresistible, starry-eyed rag dolls. In this inspiring book, Brown shares a custom pattern and simple instructions to sew, personalize, and accessorize your own rag doll. Illustrating the story behind these dolls, the book places emphasis on natural materials, vintage fabrics, beautiful notions, and quality craftsmanship.
