If you love Victorian journals and books.....By Angie2If you love Victorian journals and books, especially those that were made (by hand) by the women of the Victorian Era, then you will LOVE this book!The author of this book actually copied each page of the original Journal (which is now in a Museum,I believe) and had each page copied on hard stock, so that each page seems to come to life~!I LOVE this book...I collect vintage Ephemera, and Antique photographs, and therefore, this Journal-Book had everything in it that I love... this book had Antique photos, Antique postcards, hand-painted decorations, little notes and poems, all written by the "anonymous lady writer" (ie: Madame B) .This Journal-Book will take you back in time...to a time when women would use their artistic skills to embellish each Journal and diary pages.1 of 1 people found the following review helpful. LOVED THIS BOOK!By devonAbsolutely one of a kind book and worth buying. I bought this for various possible craft projects and was delightfully surprised not only with the pictures but also the format. Just looking through the pages inspires you to thinking out of the box and motivates you to take crafts to another level.33 of 34 people found the following review helpful. A-maz-ing!By papergirlWhat a wonderful array of artwork in this little compendium. The history behind this book - where the artwork originated - was just as exciting to me as the photo collages. The artwork is wonderful, Madame B was absolutely talented and to get a glimpse of her life by looking at some of the pages in her album is a treasure.If you love ephemera, Victoriana, and antique photos I can't imagine you not loving this book. The price is tiny, the return on investment is phenomenal!

This book shows some of the best of Victoriana, scrapbooking, 19th-century photography and collage

About the Author Elizabeth Siegel is Associate Curator of Photography at the Art Institute of Chicago.
