**Janice Zeller Ryan, Beth Vassalo : The Modern Medallion Workbook: 11 Quilt Projects to Make, Mix Match** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Modern Medallion Workbook: 11 Quilt Projects to Make, Mix Match:

3 of 3 people found the following review helpful. Pretty designs, great photos, but not really a mix-and-match design bookBy Momof4girlsI like this book. The medallions in it are modern and some are kind of quirky, and the photos are inspirational eye-candy. I do agree with other reviewers that I thought the premise of the book was kind of "mix and match" pieces so you can design your own medallion. The end of the book instructions for doing this was sparse. But if you like following patterns and want to make a modern medallion, this is a good book. If you are more design-your-own, this book could still be a good resource for ideas.1 of 1 people found the following review helpful. A few more clever ideas awaitBy Quilter TGiven my quilt book library, it's hard to believe that there is a quilt book out there about

using up scraps that would offer even more new ideas and tips, but this one did so I bought it. I especially liked the scrappy circle pictured on the lower left of the cover, but the rest of the book has plenty to offer as well. 0 of 0 people found the following review helpful. Excellent resource  
By Mary  
This book is VERY inspirational even if you don't plan on making any of the projects in the book. Well written, instructions clear and photos and drawings are beautiful. I do plan to make several of the quilts in this book, which are not overly large, in order to learn techniques new to me. Everything in the book seems doable though I would not recommend for a beginner.

Medallion quilts, known for detailed borders built around a central focal point, have seen a resurgence in the modern quilting movement. Savor the intricate piecing and sophisticated applique behind 11 all-new modern medallion quilts, designed by popular quilting bloggers. Projects range from basic to complex, with each quilt as unique as its maker. Stitch a ring of Flying Geese, learn how to resize borders, and master useful techniques, such as sewing inset curves and paper piecing. Mix and match borders, using the provided line drawings as coloring pages, to plan your design and create your own unique modern masterpiece!

Medallion quilts are a traditional style that has been wholeheartedly embraced by the modern quilting movement. Most such quilts consist of a central focal block surrounded by a series of symmetrical borders, giving an appearance of a framed picture. This collection, curated by two well-known quilt bloggers, gives full instructions for piecing 11 different medallion quilts, with styles ranging from traditional-made-modern (Erica Jackmans Oviedo Medallion) to minimalist (Christina Lanes Graphical Modern Medallion). The quilt designs are beautiful, but what's most impressive about this collection is the variety of techniques included everything from hand stitching to curved piecing to improvisational piecing to applique makes an appearance. A coloring sheet is provided for each design, allowing quilters to plan their color scheme and audition fabrics. VERDICT Its rare to find a quilting book that is both trendy and widely appealing. There are projects in this collection that will suit diverse tastes, and the customizable nature of medallion quilts guarantee quilters of a variety of skill levels the opportunity to challenge themselves creatively. (Library Journal, March 2015) "The Modern Medallion Workbook" (CT Publishing), by Janice Zeller Ryan and Beth Vassalo, also shares intricate patterns for applique quilting. The 11 modern patterns, by 11 expert quilters, range from basic to advanced. "It was a lightbulb moment for me when I realized that the definition of a medallion quilt is just a quilt made up of borders surrounding a center medallion nowhere in that definition does it state that they have to be equal, perfect or matched," writes Vassalo. (Jennifer Forker ABC News, 12/29/15) About the Author Janice Zeller Ryan holds an MFA in costume design from Carnegie Mellon University. The birth of her children (prompting her first baby quilt) took her in a new direction, where she discovered her love of quilting. She lives in Los Angeles. betteroffthread.com Beth Vassalo was inspired to learn sewing after watching her daughter create dress-up clothes from paper and tape. Beth learned the basics of sewing with the help of books and online sources. A few years later, she discovered quilting and has been making quilts ever since. She lives in Washington, D.C. plumandjune.blogspot.com
