And it's best if your sewing machine has a applicay stitch or your really good at satin stitch. I found that for the bunny table runner it's looks best if you use a course black thread for the mouth. Happy sewing!!3 of 3 people found the following review helpful. Great bookBy Karen W.I totally agree with Marti. This line of books is fabulous. The patterns are so much fun to make and so good to use for gifts, etc. I even like to just take all three and browse through them time and again, because they are so beautiful and well produced.Buy all three seasons of them. They are worth every penny paid.0 of 0 people found the following review helpful. fall and winter books and I love themBy Norman M. TaftI have the spring, fall and winter books and I love them all

Create a bouquet of simple decorative accents---a single quilt blooming with spring motifs provides all the block patterns you need. Choose from ten projects, including a quilt, table runner, wall hanging, and place mats. Use full-sized patterns for easy paper piecing, fusible-web applique, or a combination of both techniques.
