Tim Vasquez : The Snarky Guide To Cigars (Volume 1) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Snarky Guide To Cigars (Volume 1):

1 of 1 people found the following review helpful. Experienced Cigar Smoker ReviewBy WJMThis is very good book for the novice and experienced cigar smoker. Being an experienced cigar smoker now, I wish this book had been out when I started smoking over ten years ago. It is highly informative along with the added snarky comments that give the book a little edge to it.2 of 4 people found the following review helpful. Meh.By meadowreaderThere is little excuse for a quickie pamphlet like this, padded with health warning boiler plate, when there is such a huge amount of

excellent cigar stuff online for free. The snark -- monotonously flagged by "lol" -- is not particularly clever, either. Save your money. 4 of 4 people found the following review helpful. Its not funny if you have to write "lol" after everything. By Laz While this book had some good info in it, I would not say it was worth the money I paid for it. Most of the information is available elsewhere for free or more in depth. It was also excruciatingly aggravating to have every joke in the book punctuated by an "lol", It reminded me of a teenage girl typing to her friends over the internet or that guy the tells you a joke and has to laugh hysterically at himself in the hopes that you will laugh along with him. Some of the "snark" was legitimately funny in this book, but reading "lol" constantly in any publication makes it seem like its some amateur's blog on any crumby website.

Continuing in the realm of snarkiness and information, this book about cigars is not like any other cigar book written! Consider it a book that every man and woman that can dish it out being snarky and can take it! Some cool info in some of the Snarky subjects include How To Blow A Smoke Ring (Sexy chapter!) How To Spot a Fake Cuban Cigar (or a fake Cuban) How To Pick A Good Cigar, Are Drugstore or Tin Store Cigars Any Good (You would be surprised) and other killer subjects! You know you want to be able to match stogies with drinks, read this! Want to be cool? Read this! Want a raise for your job? Read this! (Ok, that may stretching it a bit..lol) But, if you don't buy this book, you will never know which beers to match with a Cuban! You won't know the Secrets Of Life! Man, that is a burden I could not live with, but it's your life, Buster. So get informed! You will get the most out of your cigars by reading this! This page turner has thrills and chills on every page for your enjoyment! So don't wait, SHOCKING information awaits those who read this! Thanks!
