1 of 1 people found the following review helpful. this book is a little scaryBy KatThis book has some huge gaping holes. The first recipe - basic soap for beginners - many different oils are used but, whatever, however the instructions are clearly for another recipe. They mention infusing your hollyhocks and rose petals, these aren't even ingredients listed. And it seems to begin a few steps in. Another recipe claims to be soap but has no ingredients other than honey and fragrance oil. How can that be soap? Some have incomplete instructions that seem to begin in the middle of the process. Overall I would be afraid to use a single recipe out of this book without running through a lye calculator first and if that's the case why even bother with these recipes. If you are an experienced soap maker you could probably spot the ingredient omissions and the missing steps. If you are a beginner this book could be downright dangerous. At best this is an "idea book" for a knowledgeable soap maker but there are no great ideas in here as far as I can tell. Soap making, when done carefully and with good recipes, is safe. Soap making done with shoddy recipes and instructions like "mix all your ingredients together" can be dangerous. This book is badly edited.0 of 0 people found the following review helpful. Five StarsBy Victorianice0 of 0 people found the following review helpful. It givss some good recipes along with some minor back stories for someone ...By KennyThis book is anything but a "bible" of any kind. It givss some good recipes along with some minor back stories for someone who never actually made soap, this is definately NOT the first book they should look to for learning how to make soap. More like a recipe book. And even still, with the massive selection of soap making books on the masrket nowadays, it ranks , well it definately wouldnt make any of the lists i would compose. But not a total waste of time. There is somethng to be learned from the experience. DEF NOT a "bible" but in my opinion. Makes a decent cofee table book or possibly a night stand drawer, or on long drive perhaps

While store bought soap does a great job at cleansing our bodies, there is nothing like making your own homemade soap.
